**(Event Recap) Solana Ecosystem Call IRL: Fostering Innovation and Community in Baguio**

By Henry Banawat • 2023-03-09

The event emerged as a pivotal platform for discussion, learning, and innovation, bridging various stakeholders in the Solana blockchain community and beyond.

**Solana Ecosystem Call HOSTED IN BAGUIO**

**Solana Superteam**

I had the pleasure of opening the evening, welcoming participants and outlining our objective to cultivate and broaden the Solana ecosystem. Following this, our skilled web developer, Mr. Kyle Gatusan, offered a comprehensive review of the Solana ecosystem and its role within the larger Web3 sphere, providing a thorough perspective on the technology's present significance and its future potential.

Mr. Walter Peralta presented additional educational material on how participants could interact with Solana's Superteam Earn to discover opportunities for bounties, grants, and careers within the Solana framework, providing actionable avenues for attendee involvement.

**Baguio accelerates smart city status thru Bitkswela's Bull or Bear Web3 Debate**

PHILIPPINE-BASED education platform Bitkswela elevates Baguio's transformation to a smart city through the Bull or Bear, Philippine Web3 Debate, highlighting the potential of Web3 to drive technological-based governance, reforms, and innovations in the city and across local governments all over the country.

Held at the University of the Cordilleras, Bitkswela's sixth Bull or Bear debate, themed "Web3 in Baguio," served as a melting pot for different stakeholders, enthusiasts, and students to engage in an open discussion on the pros and cons of blockchain-related technologies.

With a leveled understanding, Baguio citizens are able to make well-informed decisions when engaging with the Web3 space.

**Bullish or Bearish: Breaking Down Web3 for Baguio**

The best time is always the hardest, especially when discussing emerging tech. But the Bull or Bear debaters, thought leaders in blockchain, technology, and innovation, are not ones to back down from a challenge. It's time to explore wider perspectives on Web3 and its application in Baguio!

**The Miss Universe Coin Debacle—A Lesson in Due Diligence and Transparency**

By Henry Banawat • 2023-09-24

The crypto industry is already under scrutiny from various regulatory bodies, and incidents like these only serve to tighten the noose.

**Op-ED: A Lesson in DUE DILLIGENCE**

By Henry James Banawat, Executive Managing Director, Bitshares Labs Inc. (BLINC)

The recent controversy surrounding the "Miss Universe Coin," presented during the Philippine Blockchain Week, has sent shockwaves through the crypto community.

Anne Jakrajutatip, Founder & CEO of JKN GLOBAL GROUP PUBLIC LIMITED, which owns the Miss Universe Organization, has announced that they "will pursue all legal actions" against the coin's organizers.

This incident serves as a stark reminder of the importance of due diligence and transparency in the rapidly evolving crypto landscape.

Henry James Banawat is the Executive Managing Director of Bitshares Labs Inc. (BLINC), a company that specializes in web development and blockchain solutions. While Henry engages in crypto trading, his primary expertise lies in IT education, backed by extensive experience in various business fields. Under his leadership, BLINC has emerged as a notable player in the Web3 arena, with a focus on regulatory compliance and community engagement.

Bitshares Labs Inc., in partnership with Globe Partner Network, opens doors to the blockchain and web development world for MSMEs

The story of Bitshares Labs Inc., or simply BLINC, is set in the backdrop of gene trees in Baguio City. In the heart of one of the country's favorite summer destinations, a group of technologists headed by John Ernest M. Triguera, now BLINC's President/CEO, saw an opportunity to build a company that businesses can turn to to establish their online presence.
